Let me start with a statistic, in 1981, bottled water consumption was 1.8% of America's liquid consumption. By the year 1997, that number grew to equal 6.9% that means about 3.9 billion dollars in water bottle sales in the U.S. (Opel). This is a 5.1% increase, meaning the interest in bottled water has rose, and according to modern statistics

Tap water and bottled water are generally comparable in terms of safety. So the choice of tap or bottled is mostly a matter of personal preference. In the U.S., the Food and Drug Administration (FDA) oversees bottled water, while the Environmental Protection Agency (EPA) regulates tap water. However, they use similar standards for ensuring safety.
