Buying Guide - Camera Flash | Unique Photo

Here are some of the main considerations to

Read Online Camera Flash Buying Guide

look out for when buying a camera flash: Power. Power is the most important consideration when looking at flash specifications. The power output of a flash is usually expressed by its GN value (Guide Number). Without getting too technical about the GN value, you should go for a flash with a high GN rating.

Read Online Camera Flash Buying Guide

Understanding Guide Numbers - The guide number can help you calculate the range of a specific flash by dividing the guide number by the f/stop you plan on using.

$$\text{flash-to-subject distance} = \text{guide number} / \text{f-stop}$$

For example, the Nikon SB-910 used in the video has a guide number of 34 meters. So, shooting at f4, you could use the following
