Aveo power comes from a 1.6-liter dual-overhead-cam inline-4. It cranks out an honest 105 horsepower, and 107 pound-feet of torque. And with our Aveo's 4-speed automatic transmission D a 5-speed is standard D it hit 60 in a steady 10.4 seconds. The quarter mile was met in 17.9 seconds at 76 miles-per-hour.

A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Images of America: Chevrolet: 1960-2012 is the second of a two-volume photographic history of Chevrolet, one of the world's best-known automotive brands, symbolized by the bow tie emblem. From 1960 to 2012, the US auto industry and Chevrolet experienced fundamental changes in their products and business plans. In the 50-plus years illustrated here, two basic changes in the marketing of motor vehicles is evident: the rising proportion of trucks among all vehicles sold and the incursion of European and Asian brands into the market. Even though the number of different Chevrolet passenger car models tripled, total car sales for the brand fell. Chevrolet: 1960-2012 relates the year-by-year evolution of the US auto business via what was once the largest-selling make.

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 20112012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

This is a print on demand edition of a hard to find publication. An in-depth analysis of the 2009 crisis in the U.S. auto indcy. and its prospects for regaining domestic and global competitiveness. Analyzes bus. and policy issues arising from the restructurings within the industry. The year 2009 was marked by recession and a crisis in global credit markets; the bankruptcy of GM and Chrysler; the incorp. of successor co.; hundreds of parts supplier bankruptcies; plant closings and worker buyouts; the cash-for-clunkers program; and increasing production and sales at year's end. Also examines the successes of Ford and the increasing presence of foreign-owned OEM, foreign-owned parts mfrs., competition from imported vehicles, and a buildup of global over-capacity that threatens the recovery of U.S. domestic producers.
