Dewey Decimal Classification (DDC) 22 Summaries - OCLC

DDC 22 is the 22nd edition of the Dewey Decimal Classification system for libraries, originally authored by Melvil Dewey. Under the DDC, informational books are grouped in order according to the number that was assigned to them.

Dewey Decimal Classification and Relative Index: Dewey ...

The Dewey Decimal Classification, colloquially the Dewey Decimal System, is a proprietary library classification system first published in the United States by Melvil Dewey in 1876. Originally described in a four-page pamphlet, it has been expanded to multiple volumes and revised through 23 major editions, the latest printed in 2011. It is also available in an abridged version suitable for smaller libraries.

Dewey Decimal Classification - Wikipedia

The Dewey Decimal Classification (DDC) is structured around ten main classes covering the entire world of knowledge; each main class is further structured into ten hierarchical divisions, each having ten sections of increasing specificity. As a system of library classification the DDC is "arranged by discipline, not subject", so a topic like clothing is classed based on its disciplinary treatment (psychological influence of clothing at 155.95, customs associated with clothing at 391, and ...
