Deconstruction is a poststructuralist theory, based largely but not exclusively on the writings of Derrida. It is in the first instance a philosophical theory and a theory directed towards the (re)reading of philosophical writings. Its impact on literature, mediated in North America largely through the influences of theorists at Yale University, is based.

## **Deconstruction | Literary Theory and Criticism**

Deconstruction is an apparent revolution against all the literary theories before itself which vouch for a unity in the literary texts. It seeks to find the differences, contradictions, paradoxes, ambiguity and disintegration (in short, loopholes) in the text.

## **Deconstruction - an introduction to literary theory & examples**

Deconstruction is an approach to understanding the relationship between text and meaning. It was originated by the philosopher Jacques Derrida (1930–2004), who defined the term variously throughout his career. In its simplest form it can be regarded as a criticism of Platonism and the idea of true forms, or essences, which take precedence over appearances.
