The United States and the world are engaged in a great debate about new trade agreements. Such pacts used to be called "free-trade agreements"; in fact, they were managed trade agreements, tailored to corporate interests, largely in the US and the European Union.Today, such deals are more often referred to as "partnerships," as in the Trans-Pacific Partnership (TPP).

The European UCITS is a pan-European regulation with the objective of harmonizing a regulatory regime across the European market, establishing a minimum level of investor protection requirements and facilitating cross-border marketing. The regulation encompasses the management and sale of retail investment funds that offer the unique return characteristics of hedge funds in an on-shore regulated vehicle with high liquidity and transparency.

Investor Protection - an overview | ScienceDirect Topics

Several recent studies have also established a link between investor protection, insider ownership of cash flows, and corporate valuation. 5 Gorton and Schmid (2000) show that higher ownership by the large shareholders is associated with higher valuation of corporate assets in Germany.

Investor Protection Act Definition

Abstract. Recent research asserts that an essential feature of good corporate governance is strong investor protection, where investor protection is defined as both (1) the extent of the laws that protect investors' rights and (2) the strength of the legal institutions that facilitate law enforcement. The purpose of this study is to test whether the two components of investor protection are associated with an important role of good corporate governance: identifying and terminating poorly ...
