## IT Solutions Available from Hardware

Hardware problems can manifest either as total failures or intermittent problems. While it would be preferable not to have hardware problems at all, it's better (from a troubleshooting perspective) to have a total failure than an intermittent one. Total failures are much easier to diagnose because the problem is static; it isn't going anywhere.

## Hardware Failure - an overview | ScienceDirect Topics

An LE error code on the washer's display indicates that the motor is locked, possibly due to a heavy wash load. Large and heavy sized loads will put a strain on the motor, causing the LE code to occur. Performing a reset on the washer will normally resolve this error with a reduced load size. But if the error code displays on every washing cycle, the unit will require a repair service.
